

Bonterra[®]

ORGANIC VINEYARDS

At Bonterra, we grow wine organically and sustainably, treating the land with deep respect. We plant native flowers around our grapes to attract beneficial bugs, and welcome songbirds and chickens into our vineyards to eat up pests. We even employ sheep to mow between the vines. In our vineyards, every living thing is connected and we all work together to create pure, flavorful wine.

2017 RED BLEND

California

Crafted from Certified Organically Grown Grapes

NOTES FROM WINEMAKER JEFF CICHOCKI

Twice a year, the sun crosses the celestial equator, resulting in a day and night of equal length. These occurrences are referred to as "equinoxes," and the twin lengths of day and night when they occur are among the many ways nature demonstrates balance.

At Bonterra, we strive for a similar natural balance in our organic vineyards and in our wines. Equinox Red celebrates this vision. Leading with Petite Sirah and Merlot, the wine has a brilliant, dark ruby color with a glint of purple. The palate is rich and opulent, with a velvety smooth mouthfeel and subtle tannins. Striking notes of ripe dark fruit are matched by a patina of spices, herbs and toasty oak.
