

Bonterra

ORGANIC VINEYARDS

Organically farmed and masterfully made, Bonterra Organic Vineyards wines are crafted to be perfectly in tune with nature. A celebration of the vitality derived from organic cultivation, our wines reflect careful farming practices carried out on a dynamic network of estate and partner farms throughout California. Long before organic produce filled the shelves of neighborhood groceries, our dedicated team was committed to organic and Biodynamic farming because we passionately believe that farms teeming with biodiversity—encompassing vines, insects and wildlife, and healthy soils—yield better wines.

2021 ROSÉ

California

Crafted From Certified Organically Grown Grapes

VINEYARD NOTES

This rosé blends organically grown grapes from throughout the Golden State. Diverse vineyard sites and varieties like Grenache, Mourvèdre, Malbec, Nebbiolo, Zinfandel and Carignane allow Winemaker Jeff Cichocki to select from a broad array of lots to craft a balanced, cohesive wine.

WINEMAKING NOTES

We pressed the grapes immediately after harvest for freshness then kept the juice in contact with the grape skins for a brief period, which gives the wine a delicate pink, pale salmon hue. Each variety is cold fermented separately and after aging in stainless steel tanks for two months, the final blend is assembled.

TASTING NOTES

The 2021 Rosé bursts from the glass with fresh citrus aromas and grapefruit, blood orange and watermelon fruit flavors accented with maraschino cherries, quince paste and notes of Earl Grey tea. This dry rosé is both light, juicy and vibrant, with a crisp, mouthwatering finish that begs another sip.

 JEFF CICHOCKI, WINEMAKER

TOTAL ACIDITY: 0.60 GRAMS/100ML

pH: 3.35

RESIDUAL SUGAR: 0.30 GRAMS/100ML
