

ORGANIC ON DEMAND

FRESH. CONVENIENT. EARTH-FRIENDLY.

Organically farmed and masterfully made, Bonterra Organic Vineyards wines are crafted to be perfectly in tune with nature. A celebration of the vitality derived from organic cultivation, our wines reflect careful farming practices carried out on a dynamic network of estate and partner farms throughout California. Long before organic produce filled the shelves of neighborhood groceries, our dedicated team was committed to organic and Biodynamic farming because we passionately believe that farms teeming with biodiversity—encompassing vines, insects and wildlife, and healthy soils—yield better wines.

ROSÉ

California
Crafted from Certified Organically Grown Grapes

VINEYARD NOTES

This crisp and delightful rosé is a Grenache-based blend sourced from premier organic vineyards throughout California, including our own estate ranches in Mendocino County.

TASTING NOTES

The inaugural release of our boxed rosé delivers the purity of flavor of Bonterra’s organically farmed wine in a convenient, eco-friendly format that is easy to tote outdoors and stays fresh after opening for up to 30 days chilled. A vibrant bouquet of strawberry, key lime, rosewater and pineapple hints at a delicate palate, accented by notes of ripe peach, watermelon and pomegranate. This dry rosé is lovely on its own or as a versatile pairing with a range of foods.
